## A SHOT FROM THE CANON

February 26th is Ash Wednesday. What will you give up for Lent this year? Drink? Puddings? Cigarettes? \_\_\_\_\_? Could you give up something that can't be seen, namely those things that are unhelpful to yourself and others? Suggestions might include gossiping, being 'economical with the truth', or being too ready to find fault with others. Lent could give us a chance to give up something in order to prove to ourselves our amazing will-power. But it would be better for us, and others, to use Lent to focus less on ourselves by giving up those things that can't be seen.

## THE FEBRUARY PRAYER

*A window in the north choir aisle by C E Kempe (1907) depicts, in its top half, the sacrament of baptism.*

*Jesus arrived at the Jordan from Galilee, and came to John to be baptised by him. (Matt 3: 13)*

Almighty God,

at the baptism of your Son you revealed your own Godhead in him;

Shed the light of his presence in our hearts,

and give us strength to be faithful to our own baptism,

that we may show your glory in our lives;

Through the same, your Son, Jesus Christ our Lord. Amen.

## FORGET-ME-NOTS

How exciting it was to hear from Kelley Bermingham, that we were to participate in a special Dublin 8 Christmas community event - the countdown began! Our Musical Director-Norah Walsh, and Piano Accompanist-Emmet O'Connor, were thrilled to set to work on a Christmas repertoire worthy of this historic venue. "We'll actually be singing in Saint Patrick's Cathedral?" choir members asked, (squealed!), when given the news!

Kelley and her team worked with the local Gardaí, Dublin Bus, local schools, and even roofers from Wales, working on the roof restoration, to make it happen.

The day arrived and we were ready to go when the bus wheelchair ramp got stuck! But our intrepid driver found a replacement and we made great headway until the quays... the Farmers' Protest was in full swing! As a result, we arrived late, but Kelley managed a smooth re-ordering of the programme and, in no time, we were seated and ready for this magical experience. We sang at the top of our voices, from the bottom of our hearts, to fill the whole cathedral. We included classics like *The Holy City* sung by Michael Holohan (whose grandfather had been one of the original cathedral roofers), *Mile Cherubini in Coro* sung by Dermott Clery (who had once accompanied Pavarotti) and *O Holy Night* sung by Claire Scanlon (our top soprano). No-one knows to look at the members of our Forget-Me-Nots Choir who has a dementia condition and who does not. It's not relevant. What matters is the sound we make singing together and the joy this brings to us and to the people for whom we sing. Thank you for inviting us to this most special place at this most special time of year! We will never forget it! **Orla Horn, Forget-Me-Nots Choir**

## SOCIETY OF BELLRINGERS' AGM

At the Annual General Meeting of The Society of Bellringers of Saint Patrick's Cathedral, appreciation was expressed that the new training bell, which was recently dedicated at Choral Evensong by the Dean, is proving most beneficial in imparting the ancient art to potential ringers, among them transition year students from Saint Patrick's Cathedral Grammar School.

It was noted with great interest that a picture of the training bell in the Ringing Chamber adorns the front cover of the November 2019 issue of *The Ringing World*, the official publication of bellringers in these islands, and beyond. The photograph was taken by David Soanes, a member of the Cathedral's Society of Bellringers. As well as this, the magazine also carried a full A4-size page tracing the development of bell ringing at Saint Patrick's which was written by Richard A. Smith.

The article, well-researched and presented, documents the history of the bells from before the fire of 1362 up to the present day, and highlights the generosity of the Guinness family, not only in restoring the Cathedral, but also in providing for the casting of 'the back ten' bells in 1897, which were opened on Friday 20th August that year by a band of mostly visitors from England.

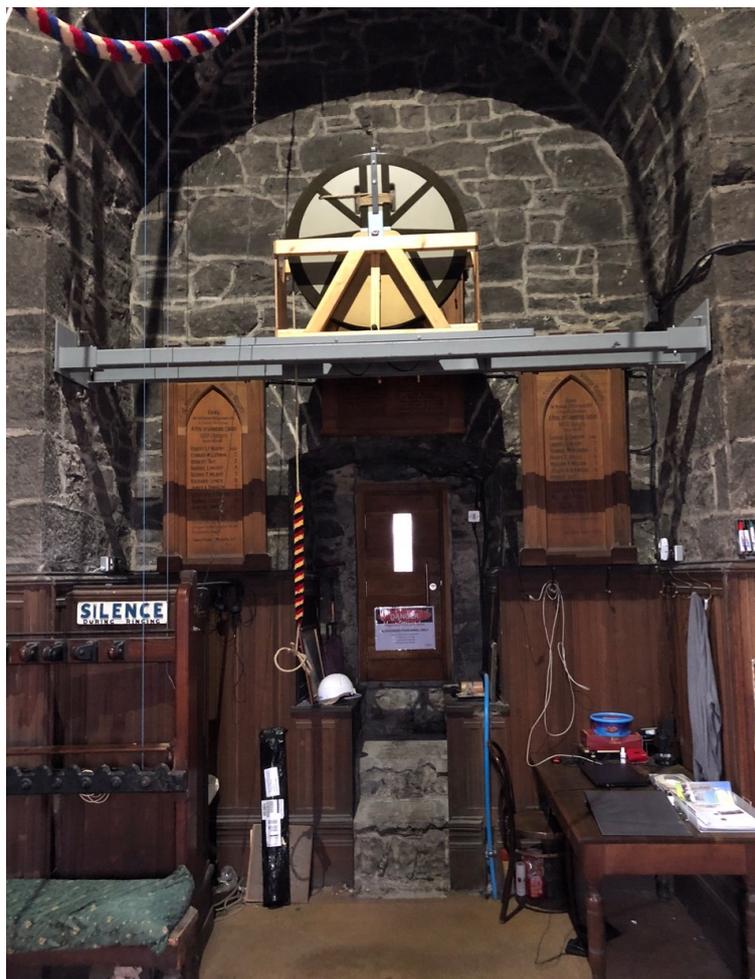

The article states: "They attempted a peal two days later, during which 'a long sleek rat...crept from behind the 7th box and into the ring; ...and disappeared behind the ringer of the treble.' Evidently this did not faze the band, as the next week's *Bell News* reported a successful peal of Kent Royal, called by James Washbrook from the tenor. But it was not to be: two years later, amidst much acrimony, and stoney silence from Washbrook, the composition was found to be false."

“The first true peal was scored in 1900 by a local band: Stedman Caters composed and conducted by Gabriel Lindoff, who had been brought over to Ireland to teach a band on Lord Iveagh’s new ten. It was the first peal for most of the band, including the tenor ringer. The ninth was rung by Lord Chief Justice Richard Cherry, who in 1909 paid to augment the bells to twelve, and have the flat sixth, which Lord Iveagh had donated for the chime, hung for full-circle ringing to provide a light eight.”

The Dean thanked the ringers for their dedication and commitment in ringing twice on a Sunday, and also at the other practices as well, and congratulated them on their achievements in bellringing competitions.

Gratitude is expressed to The Ringing World, and to Richard Smith, author of the article, for kindly permitting excerpts to be published in Close News.

## THE ROOF PROJECT

The temporary roof over the nave is now complete. The design of this structure was not without its challenges. These included dealing with rainwater run off during its construction and the weathering in of the gables to ensure the roof is sealed from the elements once the slates are removed. Now that the covering is in place and sealed work has begun on repairing the external masonry of the nave walls down to the first string course. Internally, below the roof and just above the vaulted ceiling, a very robust net has been spread over the entire span of the nave to protect the vulnerable ceiling below and to ensure no debris or scaffolding can crash through into the Cathedral nave.

The ceiling itself has been cleared of the debris of decades which had accumulated above it, greatly reducing the loading on this structure. This was very tricky work as access into the lowest points of the vaulting where it meets the nave walls required the design and construction of a bespoke scaffold. This was dismantled and reconstructed for each bay on both sides.

As the slating commences, internal work continues as the contractor begins the creation of new, safe walkways and an upgrading of the fire alarm system through the roof space. In the midst of all this activity planning goes on for the second phase of the works which will involve the repair of the crossing and transept roofs. This phase will dwarf the current one in terms of scale with the scaffold standing several metres higher than that above the nave.

By early summer the scaffold should be coming down over the nave as the slating here is completed and we are looking forward to the return of the restored clerestory windows, currently being worked on by York Glaziers' Trust. Our hope is that the beautiful and pristine glass will allow considerably more light into the Cathedral.

The design team, led by Niall Meagher and John Beauchamp, continue to do sterling work on our behalf, for which we are very grateful. As always if you would like more information or feel you can support this project please don't hesitate to contact me or the Dean. Our heartfelt thanks to all of those who have given so generously to date. GHW
